

MIGRATING WITH **Ringo & Mona**

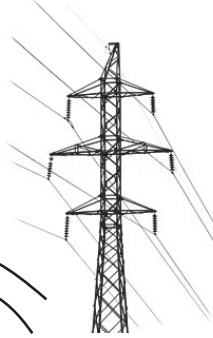

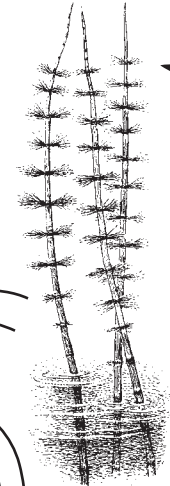

Ring-neck Duck

Monarch Butterfly

Ring-neck ducks have a faint brown ring around their black necks.

There are 6,742 monarch butterflies in the butterfly migration display.

Horsetail is poisonous to cattle but not to humans.

The golden eagle chick in the eagle diorama is made of rubber, feathers, and rabbit fur.

Ringo's Home
at the pond.

The wind blows you off course.

Power lines can hurt you.

Monarch butterflies only lay eggs on milkweed and monarch caterpillars only eat milkweed.

This golden eagle is hungry.

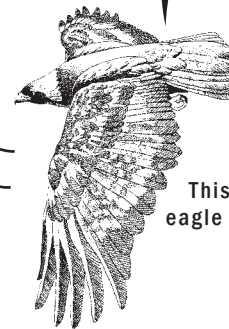

Not much lives in this polluted lake.

Mona's Home
in the milkweed garden.

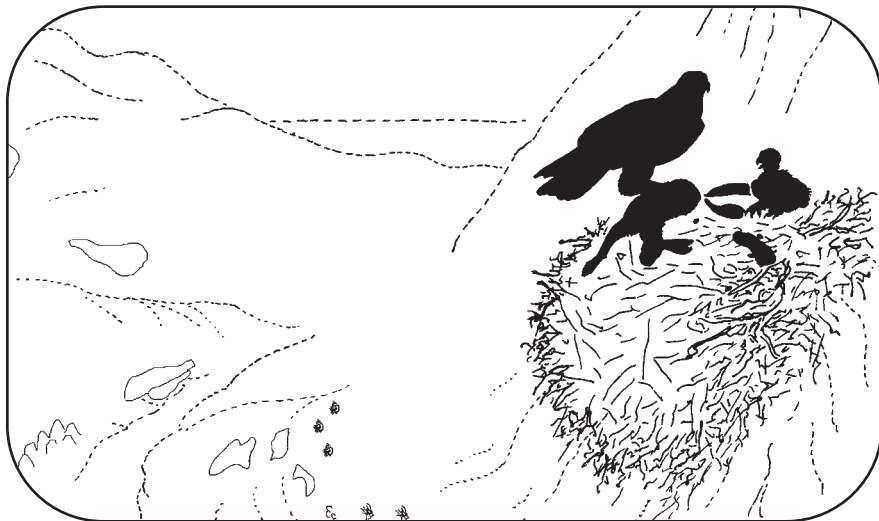

Fly around the building.

Grades K-3 | Upstairs Galleries

1. What animal is hiding under the black spruce tree behind the moose? _____
2. At the **Bogs, Fens, and Muskegs** display, get down on your hands and knees. How many beetles do you see? _____
